TRAINING SERVICES

Tellus Group of Companies established this training center in the year 2008 to train and equip our workers to serve in the Marine and Offshore (Oil & Gas) industry.

Our team of experienced trainers bring together a wealth of knowledge and experience to promote skills and knowledge of welding technique to fulfill the requirements set by the Marine and Offshore (Oil & Gas) industry.

To date, we have successfully trained more than 5000 workers on upgrading their skills and for conversion of high levy to low levy scheme.

Basic grinding training, plate and pipe cutting and work safely are also incorporated in our training program prior to the test.

Trainees are tested and qualify by an external surveyor. Upon passing the test, the certificates will be endorsed every 6 months by the external surveyor.
