Testimonial:

All kids have an innate ability. The key is providing the platform for them to develop and maximise that ability. Every kid does that differently. But some kids don't, because they don't have the platform. We appreciate that Maybelle Go Acosta and Adavieve N Mella have provided this platform for Thomas. When Thomas arrived at Zee School, he was still learning the alphabet, while his new classmates could already read and write. For a boy who is quite sensitive, self-conscious and not naturally so out-going, who knows how he interpreted that within himself? Besides helping Thomas with his English development, Maybelle and her colleagues helped Thomas to enjoy and take pride in his work, and build confidence in it and himself as a result. It remains a work in progress, but that is the most precious benefit of the extra sessions Thomas has had. For that, we wish to express our thanks.

☑ We allow / do not allow* ZEE Learning Intervention Programmes to use our testimonial in the website and other marketing media / materials.
