**THIRD QUARTERLY REPORT**

## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group is principally engaged in food supplies business in Singapore. During the nine months ended 30 September 2020, the Group continued to supply food products to ship chandlers, retailers and customers who are in the food service industry.

For the nine months ended 30 September 2020, the Group recorded a loss of approximately S\$0.2 million as compared to a loss of approximately S\$0.3 million for the same period in 2019. The decrease in loss for the nine months ended 30 September 2020 was mainly attributable to the increase of revenue from the ship chandlers and the unconditional government grants from the authorities for the outbreak of coronavirus disease (“**COVID-19**”). In view of the latest negotiations with existing and potential new customers, there has been no fundamental deterioration in the commercial and operational viability in the Group’s business.

### OUTLOOK

Due to fierce market competition in the industry, the international trading market and global widespread outbreak of COVID-19, the Group anticipates a forthcoming challenging year. Therefore, the Group will continue its effort to promote its brand as well as to provide quality products and seize business and investment opportunities in various regions.

Furthermore, with the expansion of the warehouse and manufacturing facilities of the Group through the acquisition of a new property in Singapore in March 2018, the Group believes it assists in sourcing new business opportunities for launching new product lines and minimising the rental cost of third-party warehouses, which can improve the Group’s financial performance and increasing its shareholders’ value in long term.

The widespread outbreak of COVID-19 has occurred globally, including Singapore and Hong Kong. The consequence and impact of this outbreak is still manifesting not only in the loss of human lives but in the potential disruption to economic and social activities in the markets that the Group operates in. In light of the recent outbreak of COVID-19, the Group has also explored new business opportunities to maximize the interest of the Company and its shareholders as a whole and shoulder its corporate social responsibilities on contributing the society as well as fighting the COVID-19. In addition, the Group is taking necessary actions to ensure the impact to our core businesses is minimized, our employees and associates are safe and that our valued customers continue to be served as best as we can.

The Group's overall gross profit margin decreased from approximately 25.5% for the nine months ended 30 September 2019 to approximately 22.6% for the nine months ended 30 September 2020, which was mainly due to the intense competition in the market and higher import cost and freight charges.
