

E2804, E2805, E2812, E2813 | STANDARD LOADING ARMS

FEATURES

- * Petroleum application
- * Chemical application
- * Accessories:
Holding device for filling position
- * Parallel bar

This type of loading arm is especially designed for the top loading of Road or Rail tankers using the manhole. The loading arm has a fixed reach and is suitable for application where the manhole can be accurately positioned.

Because of the robust and high quality design of the swivel joints and the precise loading arm balancing handling of the loading arm is very convenient.
